

PizzaExpress Group Limited

PizzaExpress is committed to sourcing 100% of our eggs (shell, liquid, and egg products) from cage-free sources throughout our global operations for all owned, managed, and franchised locations by the end of 2025.

Our United Kingdom and Republic of Ireland markets have had a cage-free egg supply chain since 2017. However, we have seen challenges with unstable supply in some other markets and are working with The Humane League (THL) and Global Food Partners (GFP) to establish supply chains in the areas we have not yet sourced 100% cage free eggs.

We are committed to achieving our target to be 100% cage-free globally by 2025.

	Number of sites	% of sites	Shell eggs (whole)	Items with egg ingredients 2024

TOTAL SUPPLY CHAIN	451	100%	92.6%²	85%

1. Unstable supply
2. Our whole egg % has reduced vs 2023 due to sourcing cage free eggs in India but as yet we have been unable to set up supply due to minimum order volumes.
